

ABOUT

JOCELINE PINALES-SAAVERDA

Hello!! My name is Joceline and I'm from Fort Worth, Texas. I am a junior Child Development Major and Biology minor. I love being surrounded by optimistic people and adore doing anything that involves the development of children! On campus, I have had experience being a Frogs First Leader, SIE Mentor, and SSS tutor. One of my biggest passions I have grown here has been fueled by my position as the president of our TCU SACNAS chapter. I love the STEM field and will jump at the opportunity to inform others of all the resources and opportunities available. My hobbies mainly consist of hanging out with kids, family and friends. I help host monthly connection nights for children impacted by Cancer and am a camp counselor over the summer. I'm super excited to meet you all! Feel free to come and see me to ask about anything or just to have a conversation!
